Lyceum of the Philippines University -Laguna
Km. 54 Pan-Philippine Hwy
Calamba, 4027 Laguna

Dear Ma'am Gonzales:

I am Daniel S. Montecastro, an alumni of the Lyceum of the Philippines University - Laguna and a current 4th-year undergraduate student at the University of the Philippines - Diliman Campus, majoring in Computer Science. Presently, I am working on my research topic titled "Effects of Active Listening in a Virtual Classroom". This paper requires student-teacher pairs of participants, optimally of different levels of education, and so I am requesting your esteemed cooperation in this regard. Their insights into the nature of my research would be highly useful and appreciated towards furthering this study.

Incentives for the participation in the software-testing and succeeding remote, open-ended focus group discussion would entail a monetary reward of about ~P350-500, or a deliverable of around the same price. If this request is to be approved, recommendations or news of any volunteers would also be greatly appreciated. Further details such as schedules and final adjustments can be discussed at a later date.

After consulting with Ma'am Geraldine, I have been advised to inquire here, the Center for Research, Publication, and Intellectual Property, for further instructions. Attached below are documents that provide more detail to the interview plans. Thank you for your time and consideration, and I hope to hear from you soon.

Sincerely,

Daniel S. Montecastro
